The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Kapperman et al 6,004,032 (newly cited).

Kapperman shows a package or "balloon" formed by joined sheets (figure 1), having a surface area that could be colored with crayon or paint, and a valve assembly including valve sheets 110, 118 (figure 7), with complementary convex line 102 and concave line 104 which form a fastener; there may be a single set of convex/concave lines (figure 7), or two sets of lines (figure 20).

Claims 2, 4, & 5 are allowed.

Claims 9-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
